

Intelligent Battery Torque Multiplier

**One of the World's Lightest and Fastest Cordless Torque Wrenches
with Measurement & Data Storage Capabilities**

- **Built-In Transducer for Measurement & Traceability**
- Ultimate Flexibility with Three Modes of Tightening
 - Torque Control
 - Torque Control Angle Monitor
 - Torque Control + Angle
- Temperature Monitor to Prevent Overheating
- Monitor and Review Reliable Data with Results Stored, Easily Extracted Via USB
- Wireless Capabilities for Live Monitoring Via GEN IV Control Interface

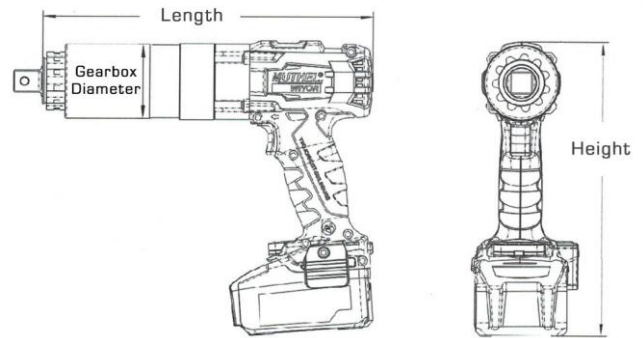

Battery Torque Multiplier – ABETP

Custom Reaction Arms available in any Size to Fit any Application.

Digital Display

Model	Torque Range		Drive Size	RPM	Length		Height		Gearbox Dia.		Weight		Noise Level dB(A)
	Nm	ft-lb			mm	in	mm	in	mm	in	kg	lb	
ABETP-350	100 – 350	74 – 258	3/4"	15	206	8.1	267	10.5	68	2.7	2.9	6.4	80

Li-Ion HD Battery and Charger

- 5.5 Ah 18V Li-Ion battery
- LiHD battery provides ultimate performance and extremely long use with minimal temperature variation
- Air cooled charging technology: Battery pack cools during charging, significantly reducing charging times
- Processor-controlled charge and discharge management
- Battery can be stored with almost no self-discharge
